At the moment, due to the horizontal property authorization, there are two independent entrances for each fraction (floor 0 and floor 1).

You can also purchase only floor 1 with backyard or floor 0 with additional approved construction project.

Floor 0 with 281m2 of gross area is in excellent condition over the original construction and has a surrounding land with 257 m2 and has an approved project for the construction of an independent villa with swimming pool, which is a differentiating factor and unique investment opportunity, given that it is the last land available within the walls of Évora.

The 1st floor, with 339 m2 of gross area, was completely modernized: water, electricity, walls and vault infrastructures, maintaining the granite, English floor and original hydraulics of the time. We also highlight the backyard of 175 m2 with capacity for 7 cars, a closed garage.

At 500 meters we find the temple of Diana, a monument classified as a World Heritage Site by UNESCO. It is one of the city's most famous landmarks and one of the most significant symbols of the Roman presence in Portuguese territory.
